

Presents the University of Kynar®

## It's time to add water-based, field-applied KYNAR® to your résumé.

Learn more about Kynar® PVDF technology from the world leader in fluoropolymer science, Arkema Inc. Arkema training offers you the knowledge you need to properly specify superior performance coatings for architectural components.

Acrymax is a licensed manufacturer of fluoropolymer coatings formulated with the newest **water-based, field-applied** PVDF technology, Kynar Aquatec® resin. Acrymax will spotlight specific applications and discuss the importance of effective project specifications including specifying the proper coating for the specific project, preparation methods, application conditions, and applicator qualifications.

We want you to attend the Philly session of the University of Kynar®

### Program Highlights:

- ❖ Basic education on superior-performance PVDF coatings
- ❖ Continuing education credits: 2-LU, 2-HSW and 1 SD
- ❖ Acrymax® restoration coatings with Kynar Aquatec® PVDF
- ❖ Panel discussion with high performance coatings experts
- ❖ Breakfast and lunch are included

**Morning of June 4, 2019  
Philadelphia Marriott West  
Salons ABC  
Conshohocken, PA**

**Enrollment is limited. Call or email now.**

### Philadelphia Marriott West

111 Crawford Ave  
West Conshohocken, PA 19428  
Check-in 8 am, ends at noon,  
lunch to follow.

**Enroll by Tuesday, May 21, 2019**
